Subjects

Alcohol withdrawal

Alcohol withdrawal syndrome: overlooked and mismanaged? [McKinley] June:40

Alternative therapies

Regional use of complementary and alternative therapies by critical care nurses [Lindquist] Apr:63

Angioplasty, percutaneous coronary

Predictors of complications associated with closure devices after transfemoral percutaneous coronary procedures [Hamner] June:30

Autoimmune diseases

Goodpasture syndrome [Bergs] Oct:50

Buddhism

Intensive spiritual care: a case study [Johnson] Dec:20

Cardiovascular care

Cardiovascular aspects of septic shock: pathophysiology, monitoring, and treatment [Bridges] Apr:14
Right ventricular infarction [Carter] Apr:52
Predictors of complications associated with closure devices after transfemoral percutaneous coronary procedures [Hamner] June:30
Clinical usefulness of the EASI 12-lead continuous electrocardiographic monitoring system [Jahrsdoerfer] Oct:28
Nursing care of patients receiving intra-aortic balloon counterpulsation [Reid] Oct:40

Cardiovascular risk factors

Risk evaluation in action for cardiovascular health [Gilski] Feb:26

Caregiver lifestyle disruption

Assessing and treating sleep problems in family caregivers of intensive care unit patients [Carter] Feb:16

Catheter care, urinary

Indwelling Foley catheters: is the current design a source of erroneous measurement of urine output? [Fallis] Apr:44

Coding

A 2-tiered approach to in-hospital defibrillation: nurses respond to a trial of using automated external defibrillators as part of a code-team protocol [Kyller] Aug:25

Cultural competence

Culturally competent nursing care for American Indian clients in a critical care setting [Flowers] Feb:45

Cystic fibrosis

Pathophysiology of cystic fibrosis: implications for critical care nurses [Grossman] Aug:46

Decision making, family

End-of-life decision making in intensive care [Thelen] Dec:28

Defibrillators, automated external

A 2-tiered approach to in-hospital defibrillation: nurses respond to a

trial of using automated external defibrillators as part of a code-team protocol [Kyller] Aug:25

Drug therapy
Alcohol withdrawal syndrome: overlooked and mismanaged? [McKinley] June:40

Education, competency-based
Competency program accommodates mix of nursing needs [Lucas] Aug:72

Electrocardiography
Clinical usefulness of the EASI 12-lead continuous electrocardiographic monitoring system [Jahrsdoerfer] Oct:28

Ethics, nursing
Teaching clinical ethics using a case study: family presence during cardiopulmonary resuscitation [Nibert] Feb:38

Goodpasture's syndrome
Goodpasture syndrome [Bergs] Oct:50

Heart failure, congestive
The implantable hemodynamic monitoring system [Wadas] Oct:14

Hemodynamic regulation
The implantable hemodynamic monitoring system [Wadas] Oct:14

Insomnia
Assessing and treating sleep problems in family caregivers of intensive care unit patients [Carter] Feb:16

Intensive care, neonatal
Challenging designs of neonatal intensive care units [Dazé Floyd] Oct:59

Intensive care units, pediatric
End-of-life education in the pediatric intensive care unit [Roberts] Feb:51

Intra-aortic balloon pumping
Nursing care of patients receiving intra-aortic balloon counterpulsation [Reid] Oct:40

Mental disorders
1 - 2 - 3 - 4... Mental illness out the door? [Alspach] Aug:8

Native Americans
Culturally competent nursing care for American Indian clients in a critical care setting [Flowers] Feb:45

Nursing practice, evidence-based
Bold voices in progressive care using shared decision making to implement evidence-based practice in progressive care [McCabe] Apr:76

Parental attitudes
Decreasing parental stress in the pediatric intensive care unit: one unit's experience [Aldridge] Dec:40

Pediatric critical care nursing
End-of-life education in the pediatric intensive care unit [Roberts] Feb:51
Development and implementation of a protocol for transfers out of the pediatric intensive care unit [Van Waning] June:50
Ingestion of toxic substances by infants and children: what we don't know can hurt [Wilkerson] Aug:35
Challenging designs of neonatal intensive care units [Dazé Floyd] Oct:59
Decreasing parental stress in the pediatric intensive care unit: one unit's experience [Aldridge] Dec:40

Poisoning
Ingestion of toxic substances by infants and children: what we don't know can hurt [Wilkerson] Aug:35

Preceptorship
Caring for preceptors: a survey of what they need and want in educational support [Alspach] Feb:8

Progressive patient care
Bold voices in progressive care using shared decision making to implement evidence-based practice in progressive care [McCabe] Apr:76

Pulmonary care
Pathophysiology of cystic fibrosis: implications for critical care nurses [Grossman] Aug:46

Respiratory distress syndrome, acute
Mechanical ventilation of patients with acute respiratory distress syndrome and patients requiring weaning: the evidence guiding practice [Burns] Aug:14

Resuscitation, cardiopulmonary
Teaching clinical ethics using a case study: family presence during cardiopulmonary resuscitation [Nibert] Feb:38
CPR—the vanishing competency [Alspach] Dec:8

Shock, septic
Cardiovascular aspects of septic shock: pathophysiology, monitoring, and treatment [Bridges] Apr:14

Spiritual care
Intensive spiritual care: a case study [Johnson] Dec:20

Where the best belong
nyp.org/careers

the Best

U.S.News AMERICA'S BEST HOSPITALS 2005

opportunity for you and your career.

NewYork-Presbyterian Hospital is the best hospital in New York, according to *U.S.News & World Report* – and we also rank number seven on their prestigious Honor Roll. Here, you'll find the top resources and technology, an unrelenting dedication to innovation in treatment, and a passionate commitment to nursing excellence.

The professional growth of our nurses is critical to us. We provide our staff with constant access to training and learning opportunities designed to develop their skills and knowledge. In short, we expect nothing but the best from our nurses – and they expect the same from us.

If you're an experienced Critical Care Nurse or RN with at least two years of current acute care experience, consider joining us in one of these areas: **Cardiothoracic ICU, Cardiac Cath Lab, Medical ICU, Neuro ICU, Surgical ICU,** and **CCU units.** We're certain that no other hospital could offer you more, and we'd like to prove it. Come join us at our:

CRITICAL CARE NURSING OPEN HOUSE

Tuesday, January 24, 9 a.m. – 2 p.m.

Columbia University Medical Center
Baldwin Hall, Milstein Hospital Building
177 Fort Washington Avenue, NYC
RSVP to 212-305-7878

Refreshments will be served.

At this event, you'll have an opportunity to speak to our recruiters, tour our facilities – and see why this could be the best place for you and your career.

Would you like to learn more about NYP? Go to **www.nyp.org/careers** and click on **"Ask Maureen!"** under **"Nursing at NYP"** – and get the answers! If you will be unable to attend our Open House, we would still like to hear from you. Please send your resume to **trd9013@nyp.org** or apply online at **nyp.org/careers.** We are an equal opportunity employer.
